The Emu cleans up to 62,000 sft. per hour and is brilliant for all jobs where fast, efficient cleaning of large areas and even obstructed spaces is needed. The self-positioning brushes adapt to difficult shapes and the narrow turning radius of only 73 inches make maneuvering a breeze. This powerhouse combines ease of operation with high productivity. The unique 4-wheel chassis offers optimum weight distribution for cleaning sensitive floors, e.g. gym floors, etc. Wait until you see how well it picks up!
